

Sampling Distribution of Mean: $n = 1$

Q-Q Plot: $n = 1$

Sampling Distribution of Mean: $n = 3$

Q-Q Plot: $n = 3$

Sampling Distribution of Mean: $n = 5$

Q-Q Plot: $n = 5$

Sampling Distribution of Mean: $n = 7$

Q-Q Plot: $n = 7$

Sampling Distribution of Mean: $n = 9$

Q-Q Plot: $n = 9$

Sampling Distribution of Mean: $n = 11$

Q-Q Plot: $n = 11$

Sampling Distribution of Mean: $n = 13$

Q-Q Plot: $n = 13$

Sampling Distribution of Mean: $n = 15$

Q-Q Plot: $n = 15$

Sampling Distribution of Mean: $n = 17$

Q-Q Plot: $n = 17$

Sampling Distribution of Mean: $n = 19$

Q-Q Plot: $n = 19$

Sampling Distribution of Mean: $n = 25$

Q-Q Plot: $n = 25$

Sampling Distribution of Mean: $n = 30$

Q-Q Plot: $n = 30$

Sampling Distribution of Mean: n = 35

Q-Q Plot: n = 35

Sampling Distribution of Mean: n = 40

Q-Q Plot: n = 40

Sampling Distribution of Mean: n = 45

Q-Q Plot: n = 45

Sampling Distribution of Mean: n = 50

Q-Q Plot: n = 50

Sampling Distribution of Mean: n = 55

Q-Q Plot: n = 55

Sampling Distribution of Mean: n = 60

Q-Q Plot: n = 60

Sampling Distribution of Mean: n = 65

Q-Q Plot: n = 65

Sampling Distribution of Mean: n = 70

Q-Q Plot: n = 70

Sampling Distribution of Mean: n = 75

Q-Q Plot: n = 75

Sampling Distribution of Mean: $n = 80$

Q-Q Plot: $n = 80$

Sampling Distribution of Mean: $n = 85$

Q-Q Plot: $n = 85$

Sampling Distribution of Mean: $n = 90$

Q-Q Plot: $n = 90$

Sampling Distribution of Mean: $n = 95$

Q-Q Plot: $n = 95$

Sampling Distribution of Mean: $n = 100$

Q-Q Plot: $n = 100$

Mean and Median versus Sample Size (n)
