

Sampling Distribution of Mean: $n = 1$

Q-Q Plot: $n = 1$

Sampling Distribution of Mean: $n = 6$

Q-Q Plot: $n = 6$

Sampling Distribution of Mean: $n = 11$

Q-Q Plot: $n = 11$

Sampling Distribution of Mean: n = 16

Q-Q Plot: n = 16

Sampling Distribution of Mean: n = 21

Q-Q Plot: n = 21

Sampling Distribution of Mean: n = 26

Q-Q Plot: n = 26

Sampling Distribution of Mean: n = 31

Q-Q Plot: n = 31

Sampling Distribution of Mean: n = 36

Q-Q Plot: n = 36

Sampling Distribution of Mean: n = 41

Q-Q Plot: n = 41

Sampling Distribution of Mean: n = 46

Q-Q Plot: n = 46

Sampling Distribution of Mean: n = 60

Q-Q Plot: n = 60

Sampling Distribution of Mean: n = 70

Q-Q Plot: n = 70

Sampling Distribution of Mean: $n = 80$

Q-Q Plot: $n = 80$

Sampling Distribution of Mean: $n = 90$

Q-Q Plot: $n = 90$

Sampling Distribution of Mean: $n = 100$

Q-Q Plot: $n = 100$

Sampling Distribution of Mean: n = 110

Q-Q Plot: n = 110

Sampling Distribution of Mean: n = 120

Q-Q Plot: n = 120

Sampling Distribution of Mean: n = 130

Q-Q Plot: n = 130

Sampling Distribution of Mean: n = 140

Q-Q Plot: n = 140

Sampling Distribution of Mean: n = 150

Q-Q Plot: n = 150

Sampling Distribution of Mean: n = 160

Q-Q Plot: n = 160

Sampling Distribution of Mean: n = 170

Q-Q Plot: n = 170

Sampling Distribution of Mean: n = 180

Q-Q Plot: n = 180

Sampling Distribution of Mean: n = 190

Q-Q Plot: n = 190

Sampling Distribution of Mean: $n = 200$

Q-Q Plot: $n = 200$

Sampling Distribution of Mean: $n = 210$

Q-Q Plot: $n = 210$

Sampling Distribution of Mean: $n = 220$

Q-Q Plot: $n = 220$

Sampling Distribution of Mean: n = 230

Q-Q Plot: n = 230

Sampling Distribution of Mean: n = 240

Q-Q Plot: n = 240

Sampling Distribution of Mean: n = 250

Q-Q Plot: n = 250

Mean and Median versus Sample Size (n)

Skewness versus Sample Size (n)

Kurtosis versus Sample Size (n)
